bbTips v1.0.5

[Wowhead tooltips](#) lets you have tooltips on urls by wowhead Id.

The bbTips tooltip mod integrates this functionality in bbcodes on your phpBB forum, plus the ability to query by name.

Multiple bbcodes are available: Item, Craft, Spell, Quest, Achievements, npc, wowchar, itemset, item icon, item dkp with PTR support.

Example BBcode usage

Item

```
[item gems="40133" enchant="3825"]50468[/item]
```

```
[item gems="40133" enchant="3825"]50468[/item]
```

PTR usage

You can prefix the tags with "ptr" to access the Wowhead Public Test Realm database.

Example for PTR 4.2

```
[ptritem]Decimation Treads[/ptritem]
```

```
[ptritem]Sho'ravon, Greatstaff of Annihilation[/ptritem]
```

Item icon

```
[itemico gems="40133" enchant="3825"]50468[/itemico]
```

```
[itemico gems="40133" enchant="3825" size=small]Ardent Guard[/itemico]
```

```
[itemico gems="40133" enchant="3825" size=medium]Ardent Guard[/itemico]
```

```
[itemico gems="40133" enchant="3825" size=large]Ardent Guard[/itemico]
```

Itemset

```
[itemset]Sanctified Ymirjar Lord's Plate[/itemset]
```

Achievements

```
[achievement]Breaking Out of Tol Barad[/achievement]
```

```
[achievement]4874[/achievement]
```

[ptrachievement]Explore Hyjal[/ptrachievement]

[achievement]Loremaster of Outland[/achievement]

Spells:

As of Wow 4.0, the spell ranks were removed. Existing spell tags with spell rank will ignore the rank argument.

[spell]Power Word: Shield[/spell] [spell]Master of Beasts[/spell]

in bbTips 1.0.4, recipes, guild perks and Glyph spells can be used.

[spell]Weak Troll's Blood Elixir[/spell] [spell]Mr. Popularity[/spell]
[]spell]Glyph of Barkskin[/spell]

Quests

[quest]A Dire Situation[/quest]

NPC bbCode

You can select any npc [npc]Malfurion Stormrage/npc]

including the new Pandaria Battle pets :

[npc]Adder[/npc]

Crafting bbcode.

The Craft bbcode can be used with or without the mats argument. The mats argument can be used only once per post.

[craft mats]Recipe: Dirge's Kickin' Chimaerok Chops[/craft]

[craft mats]Design: Brazen Elementium Medallion[/craft]

[craft mats]Schematic: Hard Khorium Goggles[/craft]

[craft mats]Recipe: Destruction Potion[/craft]

[craft]Plans: Black Felsteel Bracers[/craft]

[craft mats]Recipe: Vial of the Sands[/craft]

Current

v1.0.5

Installation

Requirements

phpbb 3.0.12

ftp and founder admin access on your phpbb installation.

MODX installation

If you have a previous bbTips, first uninstall it with Automod.
Unzip the zip file into /store/mods
Launch automod, choose the install link. this will copy all the files, perform the necessary edits.
Then surf to /install/index.php, and you will see the database installer. Launch the database installer. This will install the acp module, and clear the caches (template, theme, imagesets)
Once installed, you will find the ACP module added under the raid section in bbdkp ACP.

Changelog

2014-02-15 : 1.0.5

supports the bbDKP news page
supports Raidplanner 1.0
2014-02-15 : 1.0.4 :cactus:

updated to phpBB 3.0.12
compatible with bbDKP 1.3.0
removed edits in functions.php, now using phpbb hooks
if no bbdkp installed, don't attempt to insert into bbdkp plugin table
json parser redeveloped, wowhead redid their search page
while no json is available, item lookup is done by xml lookup, example
http://www.wowhead.com/item=Decimation+Treads&xml
2013-07-30 : 1.0.3

repaired xml install files
2012-12-26 : 1.0.2
